Established in 1985 Garstang Truck Bodies has been supplying the haulage trade top quality tipper bodies for almost 40 years. We are a one stop body shop that specialise in the manufacture of truck bodies and provide any extras required by the customer including hydraulic tipping gears, onboard weighers, air operated doors, sheeting systems, electrical items and spray painting.

Using only high strength (5454 H22 / H24 / H32 spec) aluminium to build our bodies and having built over 2000 truck bodies since being founded we pride ourselves on the quality of our bodies and how well they stand the test of time compared to other products on the market.

Hanson's specification tipping body

All specifications of bodies such as infill and fully air insulated bodies, ribbed, clear siders, bulkers, drop siders and animal waste type bodies manufactured from aluminium or steel.
